

STORY IS TOLD OF THE CAPTURE OF RUM RUNNER

Halifax.—In a courtroom resembling a well equipped navigation school, witnesses unfolded details of the dramatic capture and subsequent disappearance in a December skit of the rum-runner Kromboust with four Royal Canadian Mounted Police officers aboard.

Testifying at the preliminary hearing of the rumner's master, Capt. Ross Mason, on a charge of stealing his own vessel after seizure by a preventive service officer, First Officer Frank M. McKenna told how his R.C.M.P. cutter had overtaken the Kromboust and seized it in the name of the king. Slowly he told of the Kromboust's seizure and ultimate arrest of Capt. Mason and his crew of seven men, all charged with aiding in theft of the vessel.

McKenna testified he and his companions of a prize crew had been removed forcibly from the vessel, the seized motor vessel as she trailed the cutter Stumble Inn towards port. "Don't you try to stop me or it will be just too bad for you," he quoted the rumrunner's master as saying while they fought for the wheel.

The struggle took place off the Cape Breton coast in a wild December storm. The Kromboust had been seized by the Stumble Inn—eight miles from land, according to McKenna's evidence—and they were bound for North Sydney. Two towlines broke under the stress of weather and a third had to be used when Captain Mason came up from below.

At the Stumble Inn, McKenna said, as Mason reached the deck, Officer McKenna testified the Kromboust's powerful engine, under the roar, "Let her go easy," cried Mason, told the officer.

"Go way, man," the seaman told Mason. Then, McKenna said, the rumrunner's captain pushed McKenna away from the helm and swung it around.

Situation Desperate

New York Mayor Favors Municipal Dictatorship

New York.—The establishment of a municipal dictatorship, unique in the operation of American cities, was the answer proposed by Mayor Fiorello H. LaGuardia for solving the financial crisis facing the city of New York.

Confronted with a staggering operating budget of more than \$200,000,000 and a minimum deficit of \$25,000,000, the new mayor seeks a two-year period in which to operate with a free hand.

Under terms of his unparalleled proposal he would delegate to himself sweeping powers in the determination of economies.

Would Ban Big Incomes

Senator Lusk To Introduce Bill Providing For Double Legislation

Washington.—Senator Harry Lusk, Louisiana Democrat, said he would introduce a bill in United States Congress, providing old age pensions for persons over 60 years, and prohibiting anyone from receiving an annual income of more than \$10,000,000, in heretofore more than \$5,000,000 or owning property or money worth more than \$50,000,000.

"All surplus over and above such amounts," permitted to an individual would be paid into the treasury "in cash or in kind," under the bill.

Burn Tons Of Coffee

Brazilian Coffee Growers Use Method To Reduce Surplus

Rio De Janeiro, Brazil.—Outgoing ships reported that Brazilian coffee growers burned 918,065 tons of inferior coffee in 1933 and brought to 1,714,000 tons the amount destroyed since July, 1931.

The federal coffee department, in announcing the figures, estimated stocks have been so reduced that normal exports can be shipped when the new crop is ready in July.

Guine Ends In Tragedy

Hamilton, Ont.—The childhood game of "Cowboy and Indians" ended in death for eight-year-old Donald Springstead. When playing with Richard Collins the boy shot with a revolver wound in the chest when a shotgun Collins was handling accidentally discharged.

A Bright Future

Dean Inge Sees Hope For Large Countries With Small Population

London.—Very Rev. Ralph Inge, the "glorious dean" of St. Paul's, foresees a bright future for large countries of little population at present, such as Canada.

The dean, who retires this year from the historic cathedral, declares in the new edition of his book, "England," that the position of great Britain as one of the great powers is bound to decline relatively though not absolutely.

"The future, as regards effective forces and wealth, belongs to large countries not yet full of people," he adds.

Declaring that the dominions may not always be willing to support the Mother Country, the dean observes further that "it seems to me to be almost certain that we shall be unable to find food and raw materials for our present population."

"For this reason I favor emigration or better state-directed colonization."

Discussing arms and armies, Dean Inge makes this prediction:

"If in the future we are attacked by a European coalition we may take it as probable that the United States will leave us to our fate unless, indeed, we are invaded by a black army."

Other quotations from the volume:

"Looseness of conduct is unquestionably spreading downward to classes where it was almost unknown."

"Knowledge of methods of birth control has had unfortunate results on the morals of many persons of both sexes."

Valuable Painting Destroyed

Loss of Canvas Said To Have Aroused International Interest

Ottawa.—The celebrated canvas, "Angels' Chord" by Van Dyck, destroyed by fire at the Glenora residence, was purchased from C. S. Parsons, of the department of mines, Ottawa, native Nova Scotia, by the well known Ottawa business man. It was revealed here, International interest has been aroused by the loss of the picture, one of the three paintings each known as "Angels' Chord" or "Concert Des Anges" attributed to the Flemish master.

Covered with dust, it was found rolled up in a Greenwich, N.Y., attic on September 23, 1948, said Mr. Parsons.

The painting, according to Mr. Gleason, had been taken out of Belgium by soldiers of Napoleon and brought to Albany, N.Y., more than 100 years ago by a French doctor.

Even Germany was enquiring over the transatlantic telephone about the destroyed painting. But Mr. Gleason was too ill from the shock of the fire to answer.

Viscount Churchill Dead

Was Prominent In English Business And Political Life

London.—Victor Albert Spencer, 69, first Viscount Churchill of Wycombe, died of pneumonia and is succeeded by his son, Victor Alexander Spencer, whose wife is a Victoria girl. The new Viscountess Churchill is Kathleen, daughter of the late Robert Beaven, premier of British Columbia from 1882 to 1883. She was the widow of Captain Venn Ellis when he married Spencer in 1916.

Chairman of the Great Western Railway, the dead viscount was prominent in numerous fields of activity—business, political and social. He was one of the Conservative whips in the house of lords. He was the godson of Queen Victoria, lord chamberlain at the coronation of King Edward VII, and master of the robes at the coronation of King George.

Threat Of War

Speaker In Winnipeg Sees Many Signs

Winnipeg.—Proposed amalgamation of the Canadian National and Canadian Pacific railways is evidence Canada is preparing for war, declared Rep. Hunter Houston, Ont., in an address here.

Mr. Hunter, Canada's sole representative at the world youth assembly war congress in Paris last September, spoke to the Winnipeg Youth Anti-war congress. He said amalgamation of the two railways would permit quicker mobilization of troops.

Other evidence war was near, said Mr. Hunter, was the heavy manufacture of equipment needed for troops and the existence in Montreal of "80,000 Fascist Green Shirts."

MESSAGE OF ROOSEVELT IS WELL RECEIVED

Washington.—In a vigorously worded, personally delivered message, President Roosevelt pointed out enthusiastically that the congress toward his conception of a permanent recovery on a new basis.

The president thrust deeply toward the recently discarded practices of big business in the banking and speculative fields.

He told the joint session of congress that the United States is "definitely in the process of recovery," and proposed a permanency of the principles of his monetary, agriculture and industrial policies.

For new fields or immediate effort he asked "stringent preventive or regulatory measures" in business affairs and a governmental and public war against organized crime.

If the warm welcome given Mr. Roosevelt by the congress appeared to read his annual message was any criterion, he will have as little trouble with this session as the emergency gathering called last spring. In fact, Democratic leaders were confidently predicting that congress would do what the president wanted it to do and go quietly home a joy session.

Addressing a joint session of the senate and the house of representatives, he asked co-operation to continue the restoration of our national well-being, and equal opportunity, to build on the ruins of the past a new structure designed better to meet the present problems of modern civilization.

"We have ploughed the furrow and planted the good seed," he said. "The hard beginning is over. If we would keep the full harvest we must cultivate the soil where this good seed is sprouting and the plant is reaching up to mature growth."

"We have been told by many business men, by known Ottawa business men, it was revealed here, International interest has been aroused by the loss of the picture, one of the three paintings each known as "Angels' Chord" or "Concert Des Anges" attributed to the Flemish master.

Covered with dust, it was found rolled up in a Greenwich, N.Y., attic on September 23, 1948, said Mr. Parsons.

Arms Revision

Premier Mussolini Confers With Sir John Simon

Rome.—A revision of arms figures calculated to strike a satisfactory balance among the armaments of the powers, rather than a wholesale slash previously offered by Italy was said authoritatively to have been suggested by Premier Benito Mussolini to Sir John Simon, British foreign secretary.

The two statesmen conferred for more than two hours seeking a way of solving the present Franco-German deadlock on disarmament.

One of the subjects discussed was the reform of the League of Nations. It is understood, explained his ideas.

A significant article on the subject appears in *Lavoro*, Fascist newspaper, which says: "In general, the lines of reform of the League of Nations should be along the principle stated last year by the League of Nations conference of nations. Nations forming part of the British commonwealth are in no way deprived of their rights. It is recognition of the value of natural forces which permits the British commonwealth to maintain its unity, and the same thing should happen for the League."

"In the first category—a field which does not involve violations of the letter of our laws—practices have been brought to light which we were in the past generation raising the ethical standards of business. They call for stringent preventive or regulatory measures. I am speaking of those individuals who have evaded the spirit and purpose of our tax laws, of those high officials of banks or corporations who have grown rich at the expense of their stockholders or the public, of those reckless speculators with their own or other people's money whose operations have injured the values of the farmers' crops and the savings of the poor."

"We have been told by many business men, by known Ottawa business men, it was revealed here, International interest has been aroused by the loss of the picture, one of the three paintings each known as "Angels' Chord" or "Concert Des Anges" attributed to the Flemish master.

Covered with dust, it was found rolled up in a Greenwich, N.Y., attic on September 23, 1948, said Mr. Parsons.

May Have Fewer Members

Alberta Considering Reduction Of Seats In Legislature

Edmonton. Reduction of the number of members of the Alberta legislature, possibly to 45 or 50, compared with 63 at present, is expected to be one of the major questions up for discussion at the session expected to commence February 8.

This has been under consideration for some time, a redistribution committee having been named at the last session to deal with the problem and submit a report.

DISTINCT SIGNS OF BUSINESS RECOVERY NOTED

Montreal.—While business conditions were far below normal to the end of 1933 there have been distinct signs of recovery, according to a financial review for the year 1933.

Writing under the title "Looking back on 1933 and its business conditions," Mr. Bilkey said, in part: "The year common with the rest of the world, has passed through a year marked by events so momentous that it is yet possible to estimate the full extent of their influence. The depression, which so many people hoped was coming to an end in 1932, was continued through the 12 months that have just closed, but decreased severity at least in the early part of the year, and the monetary efforts which were attempted from time to time by individual nations, or by the nations collectively, were frustrated in large measure by European political uncertainties, the ineptitude of governments, and a general condition of international distrust."

"The failure of disarmament negotiations and the breakdown of the League of Nations produced a situation on the continent of Europe and extending into the Far East, which rendered the composition of world monetary difficulties virtually impossible. The vexed question of international relations remained, and is still, a factor of major importance in preventing the restoration or purchasing power throughout the world and the reconstruction of world trade."

"Nevertheless, while business conditions were far below normal to the end of 1933, there have been distinct and positive evidences of improvement. The vexed question of international relations remained, and is still, a factor of major importance in preventing the restoration or purchasing power throughout the world and the reconstruction of world trade."

ARMS QUESTION MUST COME TO QUICK DECISION

Rome. Premier Mussolini and Sir John Simon, the British secretary for foreign affairs, reached final agreement on a policy of abandoning disarmament proposals incapable of being put into effect now.

"If Huce and Sir John Simon are completely agreed," said a statement, "in recognizing that it is absolutely indispensable that disarmament discussions come to a conclusion quickly."

"All ideals and proposals that do not embody elements that are practical and capable of prompt realization should be abandoned."

The Fascist press, meanwhile, pleaded for unity, harmony and solidarity to face the expressed disinclination of President Franklin D. Roosevelt of the United States to participate in the League of Nations and the so-called "preamble" to world peace arising in the far east."

Big Spending Program

President Roosevelt Asks Congress For Huge Sum

Washington.—President Roosevelt asked congress to approve the biggest peacetime spending program in United States history and, despite wide head-scratching, it was so apparent that his recommendation would be enacted in almost the same form as he submitted them.

Roosevelt's estimate of the budget for the fiscal year ending June 30, 1934, and estimates for the remainder of the current year, forecast:

Government borrowing of \$100,000,000 in the next six months.

Expenditures for the two years totalling \$16,229,265,767, receipts aggregating \$7,234,004,234, a deficit for the two years combined of \$9,995,261,533, and a conserved income in the public debt to \$3,854,000,000, the highest point it ever has reached.

Of these expenditures \$1,857,488,467 were listed as general receipts for the ordinary expenses of the government and the remainder, \$11,137,417,300, was listed as emergency spending intended to further the recovery program.

Pursuing Wheat Inquiry

Status Of Shipments Under New York Bill Under Advancement

New York.—The British bribe of customs is pursuing its inquiry as to the status of a late shipment of Canadian wheat from New York to England.

It was announced here recently by representatives from New York, Buffalo and New York had been admitted free, after two previous shipments had been held liable to the exacting tariff grain other than that shipped direct from the Dominion to England.

Of these expenditures \$1,857,488,467 were listed as general receipts for the ordinary expenses of the government and the remainder, \$11,137,417,300, was listed as emergency spending intended to further the recovery program.

Editor and Publisher

There Goes a Man

The world is poorer because of the
passing of "Lawrence of Arabia." An
impassioned observer once asked a
famous in a noisy section of Cairo,
"What do you now hope, robs?"
With a steady hand took which
ed no trifling the man of the soil re-
plied, "And men!" What a man was
"Lawrence." Physically small but phys-
ically strong. Commanded respect and
respect. Admired and not feared. Cultured
but not haughty. Exception-
ally capable in many fields yet not
proud. Famous and not modest. A
man who dared much for civilization
and who had the will and stamina to
carry out the actions which he had
drawn on the blackboard of life. A

bachelor and yet a lover of children—
sacrificing his life rather than to en-
danger one. "How are the mighty
fallen!"

Cantor Cut

Edible Cantor the cut-up of stam-
pers and radio was cut out the other
day. He underwent a major operation
for some sort of stomach ailment. The
job was done in Hollywood.

Premier Bennett Praised

A leading New York paper recently
gave considerable space to an article
praising Premier Bennett of Canada.
The news has travelled far and wide
that he is endeavoring to see to it that
the good things of life are available to
an ever increasing number of worthy
people. At the same time it is known
that he is for maintaining that con-
dition of society in which men of in-
itiative, thrift and habits of work can
obtain adequate extra rewards for ex-
tra effort. The manner in which he
was received at the King's Jubilee in
London was a source of pride to all
Canadians whom he represented and
to many in the United States.

King's Jubilee of World Benefit.

John Philip Price, whose featured
editorial appears in one hundred and
ninety-five papers in the United States
Canada and the Hawaiian Islands,
states that England's Jubilee is hav-
ing a salutary effect on the thoughts
of the world. He said recently "A
rain about selling America's rock. When
some people are jittery over war
scars, when some folks take too seri-
ously a 15 per cent world depression
it is good to see a great nation go for-

ward with a magnificent gala jubilee
as though nothing else startlingly ab-
normal was going on. Such an atti-
tude has a steady influence on less-
er people with more lumpy nerves."
This writer further states that "in
looking at the hole of the economic
doubt that too many people forget that
about eighty per cent of the world's
population have had jobs and lived
about as usual during this depres-
sion period now practically behind us."

Success Philosophy

The business men are sometimes
thought of as pessimistic, hard boiled
rough drivers.

Charles M. Schwab is known as
"the smiling optimist of steel." Mr.
Schwab claims that his expectant, in-
tuitive philosophy has greatly helped
him reach the top of what he consid-
ers the nation's greatest industry. If
this statement were made by one born
in wealth we would take it with a
great deal of salt. But, when it is
realized that Schwab was once a
boy as the poorest boy in the coun-
try and has probably labored as hard
with hands and back as 95 per cent
of the men in Carbon it is a thought
worthy serious consideration. Mr.
Schwab sees the depression with dis-
tance and rather in the world's great
era of prosperity.

"Let There Be Light"

It appears that the appropriations
for street lighting were recently cut
in Catskill, New York. As a silent
reprover several merchants proposed
hanging lanterns in front of their
places of business.

Of Interest to Sunday Picnickers

Julius Streicher, German publisher,
has said "People must be made to re-
alize that God is met in nature and
that whoever departs from nature of-
fends God."

This Dog Will Always Eat

Ed Benson of Poshone, Minnesota,
lost a wallet containing \$10.00. A dog
was seen by Nick Honsford carrying
the wallet. He got the dog to give it
to him and returned it to Benson
who says there is one dog that won't
go hungry if he can help it. Nothing
was said about the man in the case.
"That's good. Possibly we are getting
to the place where it isn't 'necesse' to
find an honest man."

THE MEN IN CARBON

There are men in Carbon who know
that for the most part what they get
out of life they will work for. Chain
letter writers and stock slickers leave
them alone.

There are men in Carbon who aren't
prodding to get paid or travelling in
the mud for favors. They want health
and work and wages and will give
honest value for service for a fair
chance at the good things of life.

These men are not running their
tongues raw telling about what the
world once they are willing to have
happiness served to them on a golden
platter.

There are men in Carbon who know
that "he who does not mind his own
business soon gets to the place where
he has no business to mind." These
men use the good in others and let
someone else weed around in a search
for human faults.

If the faults of others are forced
upon their attention these men find
some excuse for the faults. How-
ever, they hold themselves to a strict
standard of living.

There are men in Carbon who are
not looking for trouble but if trouble
hunts them down it wishes that it had
tricked a willow's life instead.

There are men in Carbon who are
good citizens, working for communi-
ty welfare and who guard the reputation
of their town, its corporations and
their friends as their world that of
their own more intimate family circle.

If there are men of the opposite
kind let anyone else list them.

Snicklefritz -----

Vice-Versa

The mistress of the house heard the
bell ring and saw standing at the open
front door a Chinese henchman. Quickly
retreating she called out to the maid:
"There's a Chinaman at the door.
You go, Ella."

This was too much for the Chinese,
who stuck his head into the hall and
shouted indignantly:
"Go to 'ella, you!"

This is an excerpt from a letter
written by a freshman girl up at the
Hunting School:
"...and I'm freckling on this awful
food they serve me at the dorm. Too
I wish 129 striped; but I don't know
whether these snakes down in front
of the drug store are right or not."

The first officer called a deck-hand
to him and said "Go below and bring
up that crab-gone." The sailor did
and appeared below and remained for the
better part of an hour. Upon his re-
turn his superior officer demanded:
"Did you succeed in breaking up that
game?"

"Yes, sir," replied the mah.
"Well, what in thunder took you so
long?"

"Well, sir," the sailor replied, "I had
only two bits to start with."

"That's like a couple of hard boiled eggs
to take out," said the young fellow in
the girl at the lunch counter.

"All right," replied the waitress
with a smile, "you'll have to wait.
Mamie and I don't get off until 10."

Printing of
Distinction

Just because a local firm gives us
some of its printing is no reason for it
sending out of town for a few odd jobs.
We want ALL your Printing. We need it
all in order to survive these trying times.

way will be continued when weather con-
ditions permit. It is expected to em-
ploy 1000 men on this work, recruited
from unemployed ranks.

CASH IN ADVANCE TALK

Who wish every subscriber of this
paper could pay his or her subscrip-
tion in advance. Many of them do,
but some do not. There is nothing
within the bounds of reason we would
not do for them. But some of our
less people overlook some facts con-
cerning the paper which we now bring
to their attention. Subscriptions do
not sustain this paper. It takes ad-
vertising to make up the deficit be-
tween the cost of running this paper,
and the subscription revenue. It costs
money, time and effort to secure sub-
scribers and keep them renewed. That
cost must be passed on to subscribers
and advertisers. The losses in the busi-
ness must be absorbed by the profits
if there are any.

Certain credit arrangements are es-
sentially necessary in any business.
We have been pleased to extend a
reasonable credit on subscriptions to
subscribers who needed credit. But we
cannot believe that all who accept
credit really need it. Certainly credit
should not be considered for an indefi-
nite period. Our subscription list is
a permanent asset of this paper. Many
subscribers have been listed for years
and years. They are like old friends
to the publisher. If we had to no-
minate every subscriber, our subscrip-
tion costs would be prohibitive. Your
contribution in the matter of subscrip-
tion payments is earnestly requested.

CHAPTER II.—Continued

"Well, hardly," agreed Dad. "Is that all, Louise?"
"Very nearly. She says: 'Let me know what time Nancy will arrive at Colorado Springs, and I will send some trustworthy person to meet her with an automobile, as Pine Ridge is on a branch road and our only train leaves early in the morning. If no one greets her on arrival, instruct her, please, to sit quietly in the station until called for.'"

A girlish cheek escaped Aunt Judy.

"You can check yourself in the parcel room, Nance! Proceed, Louise. I beg pardon for interrupting."

Jack winked at one aunt as the other retorted: "You're as late as the children, Judith. But there's not much more. She says: 'I feel sure that this experience will improve your daughter.' How's that, James?"

Said Dad, with spirit: "Why on earth should she imagine that our Nance needs improvement?"

"And how would she get it in a little one-hour western town?" asked Mother.

"This way," smiled Aunt Louise, reverting to the misadventure: "She would get away from the narrow New England viewpoint. She would learn something about the vastness of her country."

"I suppose she means those 'great open spaces' we read about," laughed Jack, while his aunt, ignoring him, continued:

"The milder climate would improve her health, and she would experience the satisfaction of being self-supporting. Please write at once, and believe me, dear James, your affectionate though unseen cousin, Columbine Nelson."

Aunt Louise looked up. "Well," she declared, drawing a deep breath, "I call that the very limit!"

For this meticulous teacher of English to use an expression, even remotely approaching slang, was an event in itself. Her family smiled; and Nance retorted: "It's plain, Aunt Lou, that this is an occasion when Webster's Unabridged is totally inadequate! Dad, dear, now can this venerable lady be your first cousin?"

And did she acquire her outlandish name because columbines are the state flower of Colorado?"

"Better look up your history, my sister," replied her father. "Cousin Columbine must be over seventy and Colorado didn't become a state until 1876. I'll admit that I probably remember the date because it's also the year that I was born," he added honestly.

"But how," asked Jack, "did an uncle of yours land way off in the west, Dad?"

"You've heard the story numberless times, son."

"Not for a long while, and I never gave it any special thought. Seems queer for one lone member of a family to start off for the wilderness. How'd it happen?"

James Nelson glanced at his sister, and she said: "As I recall the story, Father's half-brother, Jethro

Nelson, who was a good bit older than the others, possessed the wanderlust. He yearned to see some thing besides his native New Hampshire, and as his young wife was fired with the same ambition, they started West in a covered wagon, drawn by oxen unless my memory is at fault."

"Alone?" queried the boy, leaning forward eagerly.

"Oh, no! There were three other wagons in the caravan, or whatever they called it. Of those pioneers turned back somewhere in Kansas frightened, I believe, by the immensity of the prairie. Others pushed on to California, but it was rumormongered of gold in the Colorado mountains that lured Uncle Jed in that direction, and unlooked-for circumstances which made him stop where he did. Of course it wasn't Pine Ridge then."

"Just unsettled wilderness. But the caravan proved too hard on his wife, and instead of reaching some settlement, Denver or possibly Aurora, which was flourishing because of the gold rush for the event, her baby was born in a covered wagon at the spot which was later to be called Pine Ridge."

"And that baby was Cousin Columbine?" asked Nancy.

Her aunt nodded, while Dad took up the narrative: "Here's where her name comes in. Early next morning Uncle Jed discovered some enormous blue and white columbines growing near by and carried the whole plant in to the new mother. The story goes that she uttered an exclamation of surprise at the beauty and cried out: 'Columbine! I know now what we'll call our little daughter!'"

"Do you suppose," asked Jack, "that the lady with a cactus blossom she had named her baby Cactaceous?"

"Goodness gracious, boy, have you no sentiment?" asked Aunt Judy. "And the fact that you're being studying botany cries aloud. Cactaceous! I never heard the word before."

"Nor I!" admitted Mother. "But do you mean to say, Jim, that a man who possessed the wanderlust was content to stay right where Pat landed him for the rest of his natural life?"

"Indeed no," spoke up Aunt Louise. "And in my opinion Uncle Jed's poor wife had a lonely time of it. He was never intended to seek gold, silver and adventure. That was, I imagine, after other settlers joined them. Years later he did strike silver at Leadville, but his wife had died of hardship before that. I believe she never saw the 'manor' Cousin Columbine no proof of Uncle Jed was the big man of the town in Pine Ridge then, though the place can't be much more than a settlement now. Anyway, it isn't on the map."

"And she expects us to send Nancy to a place like that?" gasped Mother. "I didn't realize it was so isolated."

"It's home to Cousin Columbine," observed Aunt Judy, "and perhaps that's why she's satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

"I wonder if she'd be satisfied with me?" suggested Jack. "I have a touch of this wanderlust myself."

And even if I got some sort of job it probably wouldn't much more than pay my car fares and lunches for a year or two. And there's you—simply a parlor ornament—and—"

"Thanks," broke in his sister coldly, "hiding down under the puff again. 'You don't need to rub it in just now, do you?'"

"I don't intend to rub in anything; but there's no need of do-stopping the truth, either. I suppose you could help Mother 'round the house some; but with Aunt Judy gone, and Aunt Lou home only Sundays, there won't be an awful lot to do. And I've a notion she'd rather keep busy anyway, so's not to think about things. I suppose she's just about heart-broken over you."

Nancy said nothing for a moment; then: "Do you think it will add to her happiness if I'm two thousand miles away, all alone, living with a queer old woman we've never seen, and dying of homesickness?"

"No," said Jack. "I think she'd worry herself sick. But if you weren't alone, Nance—if it went to 'You!' interrupted the girl, amazed. "Why, how do you know that Cousin Columbine would take you?"

Jack hitched an inch or two nearer, his eyes bright with interest.

"I don't expect her to; but she might get me a job on some ranch, Sis. I've always been crazy to see the West, and with no school, this clearing our own living, things would be easier for Dad and Mother."

"But you said yourself, Jack, that what Cousin Columbine wanted was a slave!"

"Oh, forget it. I was just talking. If she's a woman come in every day, why the hell would I want to go? If I were near enough so we'd get together every little while, it wouldn't be so bad. And would be helping Dad, Nance. Honestly helping."

The girl gave way to a reluctant smile.

"In my appetite as fearful a thing as that," when you talk as if we had to have to apply to the Salvation Army for Christmas dinner! Dad can't be so hard up that we'll have to worry about food, Jack."

"But it costs less to support three than five, my dear. You can't get away from that. If you say the word 'I'll' and an air mail letter to Cousin Columbine to-morrow. I'll explain what's happened, and ask if she can get a job out there. We needn't say a word to Mother until we hear from her. I'll ask her to telegraph."

Nancy looked at the boy curiously, as if he were observing a stranger. Jack was only seventeen and his sister had always regarded him with the tolerance innocent bestows upon a younger brother. Now, suddenly, he seemed older than herself, for at the first hint of trouble he had put his shoulder to the task.

"Nance, feel a bit ashamed of yourself, for she knew that it was not Jack's boyish curiosity to see the West which caused him to make such a bad and genuine desire to help his father."

"Well?" he questioned with impudence. "The girl drew in a quivering breath.

"Do—do you think we must, Jack? I'll admit that the idea—terrifies me."

"Oh, be your age, Nance! We're not going into darkest Africa."

"I know; but it's so awfully far away. Suppose we get sick—had appendicitis or something?"

Jack laughed softly.

"The only way you'll get appendicitis is by over-eating! We never use any such food as that. I don't worry! I don't say I'll be all fun by any means; but we'll be learning something about the country, as the old lady said, and it's not a bad sentence. We'll come home soon as Dad gets his business straightened out. Be a sport, Sis, and let me write the letter."

"Without asking Dad—or Mother?"

"Not needed. 'There'll be time enough to talk it over when we hear from Cousin Columbine. Like as not she'll veto the whole scheme; but even if they won't consent after we've made our plans, Nance, no harm will be done."

"Well," agreed Nancy with sudden resolution, "go on and write."

"That's the start!"

Jack said his long legs off the bed and proceeded, as noiselessly as possible, to open the window again.

"Night, Sis. I know you'd see sense after I showed it to you. And don't you dare let on we're up to anything. Just sleep now."

It was not so hard to "keep mum" as Nancy expected. The next few days were strenuous ones for the older members of the family, and the

LINIMENT

amusing letter from Colorado was completely forgotten. Jack, who did not return to Exeter on Monday, spent two of those days driving his mother and Aunt Judy to Edgemore in his beloved "Mary Ann," so they could look into conditions at the old home and decide what furniture must be sent out from the city.

(To Be Continued)

Reclamation Work

Expenditure Of Half A Million Dollars In Saskatchewan

Federal government drought area reclamation work will involve the expenditure of approximately half million dollars, according to unofficial information at Regina. This will involve activity in three main spheres, namely: (1) construction of dams and excavation of main dug-out and reservoirs; (2) establishment of numerous agricultural irrigation stations, and (3) organization of township areas in the province.

According to draft plans the creation of dams and excavations of reservoirs will be accomplished through housing, farming and ranching, in the drought areas on a yardage basis for the work they do.

Examination showed no disease. He was put to sleep twice, 12 days apart. Both times his physical condition seemed to improve, but full recovery, that he had no internal disorders, that he was not shrivelled and that his brain was normal.

A few weeks of rest followed and the man recovered. He became healthy and returned to business.

First Gliding By Night
Member Of London Club Made A Perfect Landing

A member of the London Gliding Club, C. Nicholson, has done what is believed to be the first gliding by night in the United Kingdom. Hurricane lamps, placed on the highest points of the downs by members of the club, and the moon shining, enabled Nicholson to make the flight in safety. Clouds came over the moon after he had been in the air about 40 minutes, and he decided to land.

A flash-lamp which Nicholson carried, and the head-lamp of a motor car, enabled to exchange messages between the pilot and members of the London Gliding Club on the ground. Added by motor car lights and the hurricane lamp the glider made a perfect landing.

National Fuel Policy
Western Canada Fuel Association To Call Conference

The new directorate of the Western Canada Fuel Association was instructed to call a conference of representatives of all coal-producing provinces to work out a unified national fuel policy for Canada.

The directorate includes: Whole sales' section, W. B. Doyle, Saskatchewan; retailers' section, E. S. Smith, Calgary; A. T. Child, Regina and P. R. Strickland, Saskatoon.

Elected to the retailers' section committee were: R. Drury, Regina, and Mr. Smith and Mr. Strickland.

Have Four-Hour Day
Members of the Munich Bird Society of Munich, Germany, have discovered that storks flying south to escape the European winter travel only four hours a day, spending the other 20 in feeding, resting and sleeping. They average over 30 miles an hour in their flight of thousands of miles over the stormy skyways.

Food Supply Threatened
Ravage of locusts threatens the winter's food supply of Eskimos along the Bering sea, for while the whaling season is here there aren't enough able bodied men to join the hunt.

Treatment Was Success
"Twilight Narcosis" New Cure For Mild Mental Cases

Twilight sleep for men as well as women, during mild insanity of both sexes, was reported to the American Psychiatric Association, at Washington.

Several successful cases were described, including one that might be called "streak marks," a man caught in the 1929 crash, who not only broke materially but was in physical pain.

This form of sleep, which he called "twilight narcosis," was described by A. L. Skoog, M.D., of Kansas City. He gives patients a form of sodium amital, which puts them into a condition resembling drugged sleepiness.

They can speak occasionally, but are mostly too drowsy even to sit up. This condition lasts for hours, during which the physician talks to them. His words are the only treatment.

The businessman who cracked up after 1929 was worried, slept poorly, was unable to work, had pain in the back and other places, shrivelling of some parts of his body, and spalls of skin.

Examination showed no disease. He was put to sleep twice, 12 days apart. Both times his physical condition seemed to improve, but full recovery, that he had no internal disorders, that he was not shrivelled and that his brain was normal.

A few weeks of rest followed and the man recovered. He became healthy and returned to business.

Little Helps For This Week
I will praise The Lord with my whole heart, I will show forth all Thy marvelous works. Psalm 91:1.

Thrice blest will all our blessings be. When we can look through them to Thee. When each glad heart its tribute pays. Of love, and gratitude and praise.

That which befits us, enshroued in beauty and wonder as we are, is cheerfulness and courage, and the endeavor to realize our aspirations.

I have experienced that the habit of taking out of the hand of the Lord every little blessing and brightness on our path, confirms us in an especial manner in communion with His love.

A Record Achievement
Germany's Great Zeppelin Has Crossed Ocean Ninety Times

Grif Zeppelin, Germany's veteran air-liner, has theoretically spanned the earth 24 times, if you figure out the mileage covered by it during 423 trips in 9,817 hours in the air.

This record achievement was noted on the occasion of the resumption of the South American service of the Graf after a winter interval.

The Graf Zeppelin crossed the ocean 89 times this year. It carried altogether around 30,000 passengers, five million pieces of mail and more than 84,000 pounds of all sorts of freight.

"Can you say," the teacher asked, "that we what 'ambitious' means and give a sentence to illustrate?"

A bright little negro held up his hand. "I know, sah! It's fibbing. Most fib stories am fibious."

It is a criminal offence to be seen in the company of a well-known criminal, according to an Australian law.

RELIEVE PERIODIC PAIN

If you suffer periodic pain, try Lydia E. Pinkham's Tablets. In most cases they bring welcome relief. As Mrs. Caroline Newman says, "They ease the pain."

Mr. Raymond Clark, 415 E. 4th St., Tulsa, Ok., says, "I suffered from terrible back and headache. I was worn out. Your Tablets helped me. Let them help you, too. Ask your druggist."

Lydia E. Pinkham's TABLETS

CHAPTER III

Now, meeting Jack's eager eyes as he perched on the foot of her antique four-poster, the memory of that family dinner all rushed back. Regardless of the cold air and a sleeveless pink crepe nightgown, Nance sat up, startled, and stared at her brother in dismay.

"Why, Jack Nelson! You—you're not implying that I ought to go way off to Colorado just for a—pally twenty-five dollars a month, are you?"

"I suppose down," warned Jack, "or like as not Mother'll come butting in, and I want to talk things over with you first. I can't sleep, Nance. I keep thinking about Dad. You know how he is—always seeing the bright side of everything; but he admitted to-night that he was done and out. That means Dad broke, doesn't it?"

"I don't know," said Nance, "but I don't like the way you're talking. You're just trying to scare me. Dad's not broke. He's just tired. He'll be back soon."

"I don't know," said Nance, "but I don't like the way you're talking. You're just trying to scare me. Dad's not broke. He's just tired. He'll be back soon."

"I don't know," said Nance, "but I don't like the way you're talking. You're just trying to scare me. Dad's not broke. He's just tired. He'll be back soon."

"I don't know," said Nance, "but I don't like the way you're talking. You're just trying to scare me. Dad's not broke. He's just tired. He'll be back soon."

THE CHRONICLE

TOWN & COUNTY
Photomontage

The Three Hills Field Day for the School Children was called off on Saturday on account of the rain. Mr. T. H. Ritchie took a car load of girls and St. Mary took a truck of boys to play baseball at that town.

We are sorry to hear that the infant son born to Mr. and Mrs. E. J. Garvey on Thursday, May 30, passed away on Tuesday, June 4th.

Mr. and Mrs. Clayton Hay and Mrs. S. F. Torrance motored to Calgary on Saturday.

Imprisoned in the Village of Carbon, Alta.—one Ronn Mann, branded (K) on the right shoulder, age about four years old, weight about 1100 pounds.

Mr. and Mrs. Aaron Klassen and the Misses Viola and Ruby Embree spent the week-end at Banff.

"Mutt" Skerry is with us again after several weeks' holidaying at the farm of Ronn Carney.

A. McVillie Anderson, of Anderson and McLean, sight specialists, Calgary, will make his next visit to Carbon, at McKibbin's Drug Store, on Tuesday afternoon, June 11th.

We understand that Frank Barker has made a deal through Garrett Motors for a new Chevrolet sedan and that he is leaving for Oshawa, Ontario, on Friday morning last, where he will take delivery of the vehicle.

Another dust storm passed over the district on Friday afternoon.

Messrs. C. L. MacGregor, L. Poxon, H. N. Elliott, S. F. Torrance and P. J. Bennett took in the football game in Calgary last Wednesday afternoon.

Mr. and Mrs. Clayton Hay and son Billy, and Mrs. Clarence Hay left Monday for Brooks.

first I thought I'd take arsenic and floride then and there. But my better judgment has prevailed. I am going to take all the money I have left and go over to the bar and in about twenty minutes alibitue as hell. Then perhaps I'll be able to understand your report."

Listen to this: An editorial in a Missouri paper recently read: "From now on the editor of this paper will be found bottling beer, day in and day out." The next day, after the paper was out, the editor found eleven thirsty subscribers and two prohibition agents waiting at the office for him. He finally made them understand, the typesetter had made an error. The word bottling should have been "bottling".

CHAIN LETTERS AND THAT FORTUNE

A great many people have become discouraged trying to figure out how come everyone wins and no one loses in the chain letter racket. The Vancouver Sun makes it quite clear, as follows:

"We have always been very good at figures, so we will endeavor to make it clear.

You see, when you get a chain letter, there are five—or is it six?—names on the top of it. You send just one thin dime to the name at the top of the list and then in the five letters you send out, you include your name at the bottom of the list, leaving the top name off.

Do you get that? Alright then.

Now all you send out is one ten-cent piece. What you eventually get is \$1,500.50.

That is what puzzles people. They can't see where the \$1,500.50 comes from—the nininos.

And it's all so simple.

You see there are five names on the list. And each one sends a dime. You multiply the five by five and add—that doesn't seem to make sense either.

There are five names on the list. Sum them? Each one swallows a dime. That is, each one sends a dime. That makes fifty cents.

Now we're getting somewhere. Everybody gets fifty cents and buys five beers.

Told on a second, that's not right.

BEER is RICH in body-building elements

GOOD BEER, thoroughly matured, provides many essential health-giving properties. That is why many physicians recommend it to their patients.

No, everybody gets fifty cents and you multiply that fifty cents by the number of angels that can dance on the point of a needle almost any Wisconsin. Then from that figure you subtract your income tax and add the number of feet in a mile or a dash of paprika or whatever you think best. Then you divide by the number of anyway?

The accompanying chart shows how the price of gasoline to the retailer has decreased and the gasoline tax has increased since 1924. The data for this graph are based on figures published by the Dominion Bureau of Statistics.

LOWER PRICES—HIGHER QUALITY

EVER since 1920 the price of gasoline has steadily declined. Few people realize this however because during the past ten years as the price dropped the tax increased. In 1925 there was no provincial gasoline tax and the average price of gasoline to retail dealers across Canada was 27 1/2 cents per gallon. Today the average price of gasoline to retailers is 18 1/2 cents but to this is added a tax of from six to eight cents per gallon which goes directly to the provincial governments. Not only has the price of gasoline fallen steadily since 1920 but the quality has

consistently improved. The gasoline consumer today gets more value than ever before.

Sometimes you hear talk of large profits earned by the gasoline refiner. In 1934 Imperial Oil earned \$3,025,400.12. This may seem to be a large sum but to earn it Imperial Oil had to make and market gasoline and other products amounting in value to \$82,841,311.15. That is to say Imperial Oil's earnings were relatively no greater than those of a merchant who, selling \$8,280 worth of goods in the course of a year, made a net profit of \$500.
